

Responding to Misbehavior

One-day workshop

Suitable for educators of grades pre-K–6

Develop an effective approach to misbehavior that works for teachers and students.

Regardless of grade level or subject matter, student misbehavior will occur. An educator who responds to power struggles, defiance, and meltdowns using a consistent discipline framework creates a predictable learning environment where students can thrive. In this one-day workshop, deepen your knowledge of strategies for understanding, addressing, and reducing challenging behavior in the classroom.
